## General Rules

### What are Licensure Examinations?

The Licensure Examinations are assessments to ensure that the public will not be harmed by the incompetence of healthcare practitioners. It assesses the ability to apply knowledge, concepts, and principles that constitute the basis of safe and effective health care.

### What is the Midwifery Licensure Examination?

The Midwifery Licensure Examination is an exam that assesses your readiness to practice. It is a three-hour MCQ examination. It consists of 150 MCQs which may include up to 20 pilot questions. These questions have four options from which the candidate will choose one answer.

The examination shall contain recall questions that test knowledge and questions with scenarios that test other skills (interpretation, analysis, decision making, reasoning and problem solving).

## What is a test blueprint, and what is its purpose?

A test blueprint is a document that reflects the content of your specialty licensure examination. The blueprint is the plan used for “building” the exam. The purpose of the blueprint is to ensure including questions related to what you are expected to know.

**Note :** to know more about Midwifery Licensure Exam Blueprint and References, (See Appendix A & B).
